INTERNSHIPS

AICTE-INSPIRE Internship program

- I had successfully completed my online internship at AICTE-Inspire Softech solutions on Machine Learning Using python from 26 June 2023 to 15 August 2023. I had completed tasks and mini projects which are given by the mentors. I had acquired more knowledge on machine learning with the help of python. Through this internship, I gained hands-on experience in Predict future outcomes or values based on historical data and refined my technical skills. I'm excited to apply these skills in future roles to create impactful software solutions.

KPMG

- I had successfully completed Data analytics consulting virtual internship on june 24th,2023. Over the perion of june 2023 i had completed practical tasks in :
- Data Quality Assessment
 - Data insights
 - Data insights and presentation
- I am thanking Foarge for providing mini internships.

Bootcamps

I had attempted numerous bootcamps like, i attempted bootcamp on Web development by Devtown where i learnt basic desgining of websites using HTML,CSS and Java Script.I also done some mini projects like creating front end of disney hotstar clone.

WORKSHOPS

I had attempted workshops on IOT ,Data analytics and aws cloud computing . I had get certified for successful participation in workshops.Due to these type of workshops it helped me lot in choosing career path.
